

SUPPLY CHAIN DEVELOPMENT

The New Energy New York (NENY) supply chain team is dedicated to the development and expansion of manufacturing and service providers to enable and grow New York State's supply chain and capabilities in battery production and energy storage system production and deployment. Focused on supporting and expanding manufacturers, suppliers and service providers in:

Cell materials and cell manufacturing

Battery modules and packs

Battery Management Systems

Power conversion systems and inverters

Fabricated system enclosures and containers

HVAC and suppression systems

Metal fabrication, machined and molded parts

Connectors, harnesses, power cables and busbars

Displays, circuit boards, sensors, and fuses

Electronic components

Thermal barrier, isolation, and shock materials

Extruded and drawn metal parts

System design

Value added system integration

Cell manufacturing equipment

Cell and module assembly equipment

Test equipment and services

Software and modeling

Recycling/recovery/reclaim

Site enabling services

WHAT OUR TEAM CAN ASSIST WITH

- Sourcing suppliers and service providers
- Engaging with Economic Development Organizations (EDOs)
- Identify and navigate funding opportunities
- Support establishing facilities in New York State
- Listing and searching of Battery Energy Storage Supply Chain Database hosted by NY-BEST and NENY
- Technical assistance and networking

Register and Search the Battery Energy Storage Supply Chain Database hosted by NY-BEST and NENY for FREE using this QR Code

Services provided by the NENY Supply Chain team are funded through a grant from the US Economic Development Administration in partnership with Binghamton University. There is no cost to companies accessing these services.
